MITALI SETHI**

I really don't think there is anything that is **better structured and more interactive in regard to Mains than the ForumIAS Mains Guidance Program (MGP)**. The team of Forum IAS made sure that they were there for me at all times I wanted. I had a mentor who could be available at any moment I wanted, and they regularly called me.

**IAS AIR – 87
PRAJIT NAIR**

I had joined **this test series and it turned out to be a gem**. What I really liked about the evaluation was an objective assessment and a human contact. I know both these are contradictory. Evaluation is a human endeavour. There are strong biases common in every evaluator. An access to the evaluator gives an idea about these biases. An evaluator looks for certain things when he gives marks. Things like coherence, lucidity, presentation etc. catch the evaluator's eye. I experimented a lot with my papers in the course of these 8 tests. During the sessions in which I used to interact with my mentor, he was able to point out broad areas of improvement and possible shortcomings.

MGP Program Design

We have broken the syllabus into small doable parts that can be covered in a week. After a week, candidates can appear for a Test on those topics.

This will

- help in **checking their preparation** on the topics mentioned
- **get feedback** and marks on the paper they have written
- **cover the syllabus in a disciplined manner**, which is otherwise difficult
- **become aware of issues and questions** on the topics being prepared. This is especially useful for those who have just begun. Timely tests help you understand what to focus on while studying.

The MGP has been improved with input from our MGP 2016 and 2017 Students. The goal of MGP 2019 is to

- ensure that students cover **the full Mains syllabus and revise** atleast one time before prelims.
- the Tests calendar is designed such that syllabus common to Prelims and Mains is tested January onwards by when you should start revising for Prelims
- Major Part of the "Mains-only" syllabus will be covered by December itself.

Other Features of the Program

- There will be a total of 43 Tests:
 - 28 Sectional Tests (1.5 Hours/125 Marks)
 - 7 GS Sectional Revision Tests (3 Hours/250 Marks)
 - 4 Full Syllabus Test (3 Hours/250 Marks)
 - 4 Essay Tests and Classroom Sessions
- **Supplementary Notes on Topics** of Relevance to the Mains Examination
- **Quality Improvement Sessions & Feedback** sessions with ForumIAS Mentors will be conducted in classroom and telephonically
- **Re-orientation session with Top ForumIAS Scorers** in Civil Services including rank holders from time to time.

What is unique?

“Success is stumbling from failure to failure without loss of enthusiasm” - Winston Churchill

The Test design is based on the feedback from our students who were not able to make interview of 2015 and 2016 but with constant endeavour and enthusiasm were able to get themselves in final merit list of 2016 and 2017 respectively.

There were some of the common things that they told us

- The preparation for Mains must begin before Prelims and at least one iteration should be completed.
- Papers like Ethics and GS - 1 , which become a big burden to cover between Prelims & Mains must be covered as much as possible in before February
- Candidates must spend time till March for covering Mains syllabus and the time after March must be dedicated for Prelims solely.
- Essay tests and classroom sessions to be part of the program.

Based on their feedback and participation, we went for this program design where we have classified the Topics in a manner such that

- Interrelated topics of same paper or even different paper to be covered together to provide a holistic idea for a given topic.
- The topics relevant only for mains are covered earliest So that they do not become a pain point in the later date of your preparation.
- The Tests are designed so that the Prelims and Mains preparation is synced as Prelims approaches closer
- Essay tests and classroom sessions have been made a part of the program.

“The program has been designed to be beginner friendly and provide a disciplined self-study with a targeted test series coupled with robust mentor support.”

How to make the most of MGP 2019?

The success of the program depends on:

- Timely Writing of Tests by Candidates. This is most important.
- Working on the feedback provided by the Mentor either telephonically or in the comments
- Following the guidance e-mails sent from time to time.

ForumIAS Offline Guidance Centre: 2nd Floor, IAPL House, 19 Pusa Road, Opp. Metro Pillar No. 95 – 96, Karol Bagh, New Delhi – 110005

- Writing the first few tests as early as possible and getting a feedback / review so that you have a fair idea of how to write good answers
- Avoiding submitting 3-4 tests at one go, as it discourages mentors from giving a meaningful feedback
- A feedback requires 2-3 test papers to be implemented. Kindly write 2-3 papers based on mentor feedback and schedule a mentor call subsequently after every 3-4 papers.
- Do not submit 10 papers one month before the exam. It becomes impossible to recommend changes 2-3 weeks before the exam as candidates do not have the time to implement the feedback.
